

OLIVIA HARRIS - “OLIVIAOOKY” - SCULPTING

Welcome! My name is Olivia Harris and I am from Fishers, Indiana. I have been sculpting since the spring of 2019. I really had no prior training or experience with sculpting other than some high school art classes. One day, I just decided I wanted to try a new hobby, bought some clay, and the rest was history! I have truly fallen in love with this medium.

My artist name is OliviaOoky and I have an Esty shop and Instagram page where I sell my art. I would love to become a full-time artist. I enjoy creating all kinds of whimsical pieces for everyone to enjoy!

Supplies:

- Super Sculpey Polymer Clay
- Various Sculpting Tools (to create textures, detail, etc.)
- Aluminum Foil (to use underneath the clay for a sturdier shape before baking)

Process:

When I am finished sculpting my subject, I bake it in the oven at 275 degrees for 15 minutes per ¼ inch of clay. I

wait for the piece to cool, and begin painting and bringing the sculpture to life!

After painting with acrylic paints, I use a matte varnish on my sculptures to seal my finished piece.

Today, I will be demonstrating to you how I sculpt a few of my holiday pieces that you see before you on the table. I will show you how I shape the clay, create textures, and bring that extra dash of personality to the characters.

*Grab a piece of clay at the front of the table to feel it in your hands and get an idea of the possibilities. Have fun creating your own little piece!
