

BUILD & BRAG - LISA & MEL SCHNEIDER

Medium: Wood

Hi there!

We love creating beautiful, handcrafted signs and home décor made of wood! Below you will find an outline of our process from start to finish.

- 1) Design: We pull inspiration from many places including Pinterest, at various stores, and in our own heads.
- 2) Once we have a design in mind, we think about what size would be right - should it be on one piece of wood, have a frame, be plank style, etc.
- 3) Next, we use our Cricut (die-cutting machine) to design and print the image/words, using either permanent vinyl that gets applied to the wood, or a stencil that allows us to paint the image.
- 4) Next, we cut the wood, paint or stain the background, and apply the image.
- 5) Finally, we add finishing touches, for example adding a frame, putting a pom-pom nose on Rudolph, putting a hanger on the back, etc.
